Dear Rivermont Friends,

The supply boat got in and we have food once again! Praise the Lord!

But just before it got here, someone stole our Starlink dish off of our roof at 3 in the morning. We didn't even know they had stolen it! So we had no internet. I did manage to piggyback on another internet system here, and was able to talk with our brother in law, Bobby Jank, and he is setting up a ministry in getting these Starlinks set up in other villages, that have no way of contact, well at least in an easy fashion. The only way in now, is with the military. So, anyway, he gave us one, that we have to replace. And it came up on the flight that Michael and Keila came in on, well I think it was the second flight. And then we had to figure out another place for it, that would make it harder to be stolen.

Now we are set back up again! Praise the Lord!

We are working on a prayer letter and hope to get it out soon!

Thank you again for your all's love, support and prayers for us during this very difficult time we have gone through.

Partnering with you all!

Sharon and Faith
